Trump removes watchdog tapped for \$2T virus rescue oversight

By E. TUCKER/M. DALY/M. JALONICK

Associated Press

WASHINGTON (AP) — President Donald Trump has removed the inspector general tapped to chair a special oversight board of the \$2.2 trillion economic package intended to help businesses and individuals affected by the coronavirus, officials said Tuesday.

Glenn Fine, the acting Defense Department inspector general and a veteran watchdog, had been selected by peers last month for the position. Now it's unclear who will oversee the rescue law.

The move threatens to upend the rigorous oversight that Democrats in Congress demanded for the huge sums of money being pumped into the American economy because of the virus. It's also part of a broader conflict between Trump, a president averse to outside criticism, and the watchdog community tasked with identifying mismanagement and problems inside government agencies. House Speaker Nancy Pelosi criticized Trump's removal of Fine, saying he is moving to "undermine oversight." And Senate Democratic Leader Chuck Schumer swiftly condemned Trump's action.

Cualquier cambio laboral mester di acuerdo mutuo

Meter presenta plan di sobrevivencia di compania como criterio pa FASE

ORANJESTAD - Director di departamento di Labor, Franklin Kock, den presencia di minister di Labor, Glenbert Croes a declara cu e terminacion di acuerdo of relacion di trabou no por wordo imponi. Pero esaki ta e tipo di casonan cu nan ta bin hayando ultimo dianan.

El a splica cu e condicion di trabao cu ta tanto dunado di trabao como y trahado a yega na dje, a nace a base di acuerdo mutuo. "Cambianan mester ta di acuerdo mutuo," el a bisa. Kock a agrega cu e crisis cu pais Aruba ta pas-

ando aden, entre otro riba tereno laboral, no ta kita e caracter y relacion cu ta existi entre e dunado di trabao y e trahado. E punto aki pa DAO su maneho ta hopi importa, ya cu 'mester yega na acuerdo mutuo y no impone cos,' el a indica

Criterio pa FASE

Igualmente el a referi cu pa suavisa e dolor financiero cu e efecto cu e coronavirus/Covid-19 tin riba nos pais, y e cantidad di hende cu a perde nan entrada, gobierno a dicidi di bin cu un fondo di asistencia social di emergencia. E intencion ta pa yuda mas

trahado cu por tin den un poblacion di mas cu 50 mil trahado.

P'esey mes DAO a bin cu algun criterionan pa algun trahadonan por haya ayudo economico via e FASE (Fondo di Ayudo Social Economico). Un criterio basico tin di haci cu e plan di sobrevivencia di e compania. Ademas un carta unda e dunado di trabao mester indica e tipo di compania, servicionan, efectonan di e crisis actual riba e lunanan april, mei y juni. Tambe nan mester specifica na ki sorto di acuerdo mutuo e dunado di trabao a yega cu su traha-

donan pa no mishi negativamente cu e condicion di trabao. Ademas di nan ID y nan pay slip y si ta un compania riba su mes su BBO.

Kock a bisa cu nan mester di e carta ey pa nan por sa con hopi trahado a wordo afecta. Pasobra pa e trahadonan por bin na remarca di e FASE, e mester bay atras den su sueldo. Pero tambe e mester tin di haber cu e crisis causa pa e coronavirus, y e mester cay bao 950 florin.

El a splica cu nan ta criteria cu nan ta uza pa nan por tene e fondo aki pa e trahadonan

den necesidad manehabel. Kock a indica cu gobierno kier yuda trahado, pero no ta cu e shelo ta e limite den caso di placa. Ya cu logicamente lo bin control financiero cu nan mester por cumpli cu nan pa medio di diferente instancia. Pero tambe nan kier haci un bon trabao pa tur trahado den necesidad por haya nan placa.

Igualmente e ta consciente cu na final di maart hopi trahado a cobra of a cobra poco menos. Pero tin hende cu ta traha pa kinsena of pa luna, y e luna di april cu a cuminsa core, sigur ta bira uno complica pa hopi hende.

Inspeccion riba companianan cu a manda trahadonan cas

Flexibilidad riba ley laboral pa kita hende di trabou no ta posibel

ORANJESTAD - Minister di Labor, Glenbert Croes a bisa cu den tempo di crisis di coronavirus/Covid-19 bo ta bay weita e miho cara of e pio cara di hende.

Tin compania cu no por cu nan peso laboral, pero tin otro companianan cu no kier. Den e caso aki e ta ripara cu abuso ta wordo cometi contra trahadonan negligiendo nan derechonan bao e argumento di e crisis di Covid-19 cu nos ta pasando aden.

E mandatario su mensahe tabata cla. Pa esnan cu no por tene hende na trabou ta comprendibel cu nan mester atende e situacion aki den mutuo acuerdo cu nan trahadonan. Pero pa esnan cu no kier, e ta haya cu bo no por laga e tata y e mama di famia fin di luna sin cos di come.

P'esey nan a bin cu fondo di asistencia social di emergencia (FASE), unda nan ta defini e criterionan pa por cumpli cune. Ya caba nan tin

alrededor di 8.400 peticion di trahadonan cu a perde nan entrada. Y tambe nan tin alrededor di 1.100 peticion di dunado di trabao.

Igualmente e mandatario a anuncia cu nan ta bay cuminsa severamente algun control riba e companianan of empresanan cu na dado momento ta mandando nan trahadonan cas. Of nan a reduci nan salario, 'sin haci niun esfuerzo real, sincero y genuino' pa yega na un acuerdo cu nan. Pa asina percura cu e trahadonan por tin un entrada. E tin comprension cu esaki mester bay segun e dunado di trabou su forsa financiero.

Igualmente e mandatario a bisa cu mirando e cantidad di keho cu nan ta bin hayando, departamento di Labor ta cuminsa yama e companianan y tambe cuminsa manda inspectornan cerca nan.

Contesta na KvK

Igualmente Croes a referi na e solicitud cu Camara di Co-

mercio (KvK) a haci pa gobierno pa flexibilisa nos ley di labor, entre otro elimina articulo 1613 x lid 2 BWA. E articulo aki tin di haci cu contracto laboral pa tempo defini. E articulo aki tin cuater caso limitativo, y si nan ta wordo elimina, e trahado ta wordo condiciona na contracto di corto duracion di un par di luna so, y despues e relacion di trabou tambe ta termina.

Riba e solicitud aki di KvK, minister di Labor su contesta tabata: "Si comercio kier flexibilidad di ley laboral pa kita hende di trabou, mi contesta ta no. Si bo kier flexibilidad di ley laboral pa bo por yega na otro areglo cu e trahado den mutuo consulta pa loke ta trata salario, nivel di salario y orario di trabao, e contesta ta si."

DIALUNA PA DIABIERNA

Fraccionnan MEP/POR/RED cu carta furioso na Gobernador *'Hulanda tin deber di yuda'*

ORANJESTAD - For di diferente correspondencia di ultimo simannan encuan to e situacion di crisis na Aruba y e otro islanan Hulandes den Caribe, por saca e conclusion cu lo bin ayudo den cierto forma di parti di Hulanda, den e situacion dificil como consecuencia di e pandemia di coronavirus, y mas cu tur cos e efectonan cu esaki tin riba economia di e islanan. Entre nan Aruba ta hayando e golpinan mas fuerte pa motibo di su dependencia di turismo.

Mientras cu di parti di e gobiernonan di e islanan, di Aruba en todo caso, ta spera cu parti di e placa necesario lo ta den forma di un donacion, den e correspondencia di CAft y e carta cu ministro Raymond Knops a manda pa parlamento Hulandes no por detecta ningun referencia na esaki. Adem as den expresionnan haci den prensa, Knops ya a indica cu e ayudo lo no ta den forma di donacion, sino den forma di prestamo so.

Esaki a causa un reaccion rabia di e fraccionnan den parlamento cu ta sostene gobierno di coalicion, den forma di un carta na Gobernador fecha dia 7 di april 2020, den cual e fraccionnan ta muestra indignacion pa e posicion cu e mandatario Hulandes a tuma.

Di nan banda e fraccionnan ta argumenta cu e articulo 36 di Statuut ta prescribi ayudo cu, segun nan interpretacion, no mester ta den forma di un prestamo, sino un donacion.

Segun e fraccionnan loke a sucede awor, den e caso di e crisis di coronavirus, ta exactamente pakico a inclui e articulo aki den Statuut, cu nan ta mira como 'derecho imperativo' (dwingend recht) y cu por lo tanto Hulanda mester cumpli. E fraccionnan ta bay asina leu di bisa: "Ta pa nos como representante di pueblo incomprendible cu Hulanda ta trata di evadi su responsabilidad conforme articulo 36 di Statuut di Reino."

Tambe e fraccionnan ta muestra cu e ausencia di un posible actuacion contundente pa loke ta procesa e peticion cu gobierno di Aruba a haci, ta negativo pa Aruba y ta trece estabilidad di e pais na peligro. Adem as cu nan ta mira cu un eventual decision desaprobante di Consejo di Ministro di Reino lo por tin consecuencia pa comunidad di Aruba.

E fraccionnan ta referi na e hecho cu Hulanda na hopi ocasion a yuda varios pais na mundo financieramente den tempo di crisis, manera den e caso di e problematica relaciona cu e situacion na Venezuela. Contrario na esaki, varios peticion di Aruba pa apoyo no por a conta cu un decision positivo di Hulanda. "Hulanda tin derecho di apoya financieramente paisnan fuera di Reino, pero pa cu paisnan dentro di Reino ta existi sin embargo un obligacion conforme Statuut." Ta sumamente importante cu e relacionnan dentro di Reino ta bon, mas aun durante e crisis di Covid-19. Por lo tanto e suscritonan ta acerca bo persona, hustamente

pa preveni escalacion di emocion entre e paisnan."

Otro punto di debate fuerte lo por bira e recomendacion

haci pa CAft den su prome conseho preliminar, pa pone en todo caso un raportahe mensual como condicion pa asistencia Hulandes den

e proceso di recuperacion, manera ta existi caba pa Sint Maarten desde e desastre di horcan di algun aña atras. Na e momento aki Aruba ta raporta cada tres luna con implementacion di presupuesto ta bay, a base di e acuerdonan encera den e ley di Aruba (Laft) y e protocol di november 2018.

Nota di redaccion:

Na un momento cu nos pais ta den e cataclismo mas grandi imaginable, cu un perdida casi total di nos economia, lo ta mas na su lugar pa discuti cierto asunto via diplomacia discreto, cu tira e asunto riba caya. Aruba mester accion contundente; no tin lugar pa rabia ni frustracion. Pleito cu esun cu mester yuda no ta sirbi ningun proposito.

Refineria di Aruba,

Ta urgente pa mantene e instalacionnan

ORANJESTAD – Ayera mainta Refineria di Aruba (RDA) a ofrece un conferencia di prensa di prensa pa informa tocante e terminacion di contract cu Citgo, di cual nan a confirma cu nan no kier desmantela e refineria.

Tocante esaki, Richard Eman presidente di Hunta di Supervision di RDA, a splica cu desde dia 10 di juni 2016 Gobierno di Aruba mediante e ex prome minister presidente Mike Eman y actual parlamentario Mike de Meza a firma varios acuerdo cu Nelson Martinez pa Citgo Aruba Holding y Citgo Aruba Refinery. Cu esaki, Eman a expresa cu

nan a haya tur e instalacion pa drecha esey y pone den operacion e mashinnan pa nan por traha cune, asina mes el a menciona cu den e tempo ey nan no a haci hopi cos cu e refineria y e tankinan, despues di dos aña y mey na comienso di 2019, finalmente Citgo a bin cerca RDA y nan a declara cu nan no por traha mas y no por cumpli tampoco cu apertura na 2020.

“Tin sancion cu a wordo imponi riba Citgo y door di esey nan no por sigui cu e trabou eynan”, Eman a sigura y desde e momento ey nan a stop di paga huur tambe y wordo pone den ‘default’ sabiendo cu nan no lo cumpli mas.

Eman a señala cu for di e momento cu nan a pone Citgo na default esey ta nifica cu ta un disputa, den e acuerdo ta menciona cu den henter procedura con ta bay trata cu e situacion di default aki di cual ta regada cu den e momento ey mester bay pa un proceso di negociacion, mitigacion, cure process y despues si no lo Sali bon mester bay pa arbitrage.

Eman a relata cu esaki ta un proceso largo cu por tarda te 5 aña, pero segun e mes a sigura, “nos no por warda te 5 aña pa un contesta di un grupo di arbitrage”.

El a trece dilanti cu e proximo paso cu nan por haci pa Citgo ta pa desmantela e instalacionnan, “esey ta e maximo cu nos por haci”, asina mes el a afirma cu Gobierno di Aruba y RDA no kier desmantela, nan kier habri e refineria, habri e tankinan, duna pa Arubianonan trabou, nan kier pa gobierno haya entrada pa nan por cumpli cu obligacionnan di salud, infraestructura, entre otro, pa finalmente haya un economia basa den mas cu turismo so.

Eman a relata cu desde e momento cu Mike Eman, Mike de Meza y Nelson Martinez a firma e contract aki cu normalmente den tur acuerdo e expectativa cu tur dos banda lo gana, e parti di Citgo ta un bon situacion, pero e parti di Aruba of RDA tabata malo

loke ta nifica cu Citgo por haci loke nan kier.

For di momento cu Citgo hunto cu RDA a haci e prome reunion, Eman a aclaria cu nan no por laga e refineria sin haci nada di e cual Citgo a bisa cu nan lo kier suspende e contract, pero den bista cu tur cos lo keda atras, nan a suspende e contract temporalmente y nan a duna bek tur instalacion pa RDA pa nan por desaroya loke nan tin planea.

Di esaki, a bin dilanti un Memorandum of Understanding (MoU) cu tur e puntonan documenta y acorda y a base di esey ta bin un acuerdo cu ta yama Temporary Suspension and Transfer Agreement cu for di e momento ey nan a dicidi di kita tur e trahado, pa cu esaki, Eman a comenta cu “esaki ta un relacion di dunado di trabou y trahado, nos no por mete eynan, pero nan mester trata nan trahadonan bon”.

Eman, a trece dilanti cu pa cada biaha cu nan tabata reuni cu Citgo nan tabata trece condicionnan nobo y na final di aña 2019 nan a dicidi di haci un terminacion di contract, “Citgo a declara cu na januari nan ta manda tur trahado pa cas, nan ta pone e yabi na e post y nan ta bay, pero esey nan no por haci”.

Di loke ta trata e momenton-

an aki, Eman a bisa cu loke nan kier ta pa pone e tankinan den servicio, busca un operador pa drecha e refineria y opera e refineria, den pasado Eman a bisa cu gobierno anterior no tabatin esaki den mente.

Renny Arends director interino di RDA a splica cu un parti beneficioso cu a resulta den e acuerdo ey ta cu un bes cu nan a haya e facilidad ora e situacion politico di Venezuela lo cambia cu e sancion a wordo kita, Citgo por bin bek pa sigui cu e rehabilitacion, e parti di distribucion cu semper tabata wordo mancha pa FMSA lo keda den man di FMSA.

Otro posibilidad tambe ta pa sigui haci negoshinan cu e tankinan cu por duna un entrada y cu lo ta necesario pa preserva e refineria durante cu Citgo no t’ey y si nada no wordo haci e refineria mes lo desmantela su mes door cu ta ubica den un lugá cu tin un nivel di corosion hopi halto.

Di su parti, Eddie Oduber manager general di Terminal Di Energia di Aruba (TDEA) a trece dilanti informacion di e terminal na e momentonan aki di cual el a musta den varios potret e condicion di e terminal, di esaki el a bisa cu ta trece hopi preocupacion pa e parti di e terminal y refineria debi na mal estado cu nan ta.

Ibisa cu conseho pa ‘shelter in place’:

Haci movecion y come saludabel

ORANJESTAD – Durante tempo actual den cual mayoria di hende ta keda cas, e habito di keda cu persona cu no ta haci movecion, of ta keda henter ora ta wak television of programa, por conduci cu ta lubida e importancia di ehercicio.

Sheryl Arends-Croes, dietista di Ibisa, ta splica con e estilo di bida di un persona por cambia. Usualmente, hende no ta ripara con lihe por subi peso si keda come na cas, cu e mal habito di no kima vet of no haci suficiente ehercicio. “Mester balansa locual ta come y movecion.”

Ehercicio ta importante. Si come mas, peso ta subi, y e balans di movecion ta baha. Mester move mas pa tene e balans entre comemento y movecion. “Movecion mester ta igual pa bo tin un peso normal.” Arends-Croes ta bisa cu esey ta consehonan con pa anda cu cuminda y biba saludabel.

Bon Dia Aruba a puntra Arends-Croes, mirando cu tin hende cu ta opta pa no haci ehercicio, hasta sabiendo cu ta bon pa nan. Pakico esaki? Arends-Croes ta contesta cu cada persona mester busca un ehercicio di cual ta deriva placer. “Mester keda dberido pa bo, sea ta cana, core,

landa, zumba, cualkier actividad di ehercicio cu ta pone e persona activo y den movimiento.”

Un persona por come saludabel y no haci ehercicio? Arends-Croes ta contesta cu esaki ta posibel, pero normal ta pa e dos bay hunto, come saludabel y haci ehercicio modera. Pero pa un bida saludabel, mester inclui ehercicio.

Ademas, e ta remarca cu si ta come mas calorica, mester haci mas ehercicio, pa percura pa e balans lentamente yega na unda e persona kier yega pa mantene un peso saludabel. “Tin manera di come salu-

dabel, pone tips con pa come asina. Ta saludabel y cambia bo comportamiento y manera di mira cuminda. Come ora

bo tin hamber, cosnan cu ta bon pa bo. Asina ta perde peso y mantene”, el a splica.

BON DIA ARUBA ta un corant redacta y imprimi na Aruba y ta obenibel di dialuna te cu diasabra. Ningun contenido por wordo reproduci sin permiso di editor.

Universidad di Aruba cu programa di les digital

ORANJESTAD – Universidad di Aruba a trece dilanti un cambio den nan estructura pa adapta na e situacion actual cu pandemia di COVID-19. E estructura tin como meta e continuacion di les pa e studentenan.

Glenn Thode, rector di e universidad, a duna di conoce cu e situacion actual a pone cu gobierno a bin dilanti cu medida cu nan no por habri nan edificio pa sigui duna les. E edificio ta completamente cera. E unico excepcion ta cu dos bes pa siman, hende ta bin controla e condicion di e edificio, pa sigura cu sistema di IT ta funcionando bon, y e bukinan cu tin den biblioteca cu e sistema 'mester sigui funciona bon'.

Pero a pesar cu a cera e localidad, Thode ta bisa cu ta importante pa sigui cu educacion. El a bisa cu e cambio pa pasa na educacion online tabata preparando for di basta tempo, cu cada docente a sigui curso. Awo nan tin e conocimiento y a invita pa duna training y tecnica pa haci cambio den educacion.

"Con bo ta haci cambio? Con bo mester transforma e materia, y con ta haci pa bay online? Tur esey e docentenan a sigui curso. A haci esaki via herment online, y for di basta tempo tabata test e plataforma pa hacie mas fuerte", Thode a splica.

E switch completo, cu e do-

cente no tin tempo cara-a-cara cu e alumno, ta pone un peso extra riba tanto e estudiante como e docente. Ta mira cu tin algun reto en general, pero segun Thode, e reto mas grandi ta e parti di High Tech.

High Tech ta nifica cu mester tin un nivel halto di tecnologia, sea e computer, su drive software, mester tin un velocidad halto. Tambe mester bay bon si docente haci uso di material audiovisual, video cu ta rekeri pa e proceso bay bon.

Conexion di internet mester tin un velocidad halto pa por procesa streaming. Esaki tur por ta un reto pa e docentenan, kende nan por ripara cu tin tecnologia na cas pa duna les a distancia, pero no tur tin locual ta necesario pa e proceso draai bon.

Tin algun estudiante cu ta biba den un situacion cu no ta yega na nivel di high technology pa por sigui e les manera mester ta. Esey ta ocasiona cu ta dura tempo y ta genera frustracion pa e estudiante. E universidad ta bezig pa busca otro forma cu ta tene e retonan aki mas na cuenta.

Segun e rector, no ta bay cambia e aña escolar, ya cu 'nos tin henter e aña programa' y tur cos ta bayendo bon, cu e tempo pa duna les. Sinembargo, e ta remarca cu tin algun programa den cual a rekeri e studentenan pa bay stage. Segun Thode, e reto ta cu e estudiante mester a core

stage na hotel, den area cu e ta studiando. Si e luga a cera su porta, esaki ta bira un reto pa e estudiante.

Pa e motibo aki, universidad mester evalua e situacion, pa sa exactamente con lo mester haci den futuro, pa trece un solucion pa programacion di locual e estudiante por haci pa obtene su diploma a pesar di e circunstancianan.

Actualmente nan ta bayendo pa e parti online pa asina pospone te ora e situacion normalisa. E reto pa Universidad di Aruba ta cu su aña escolar nobo ta keda pendiente. Thode ta amplia bisando cu ta un situacion cu henter mundo ta sinta cu un 'question mark' riba nan cabes, pa mira ki ora tur cos ta bay bek normal.

Te na e momento ey, mester organisa educacion den e forma mas regular posibel. Ta mira cu na diferente universidad na Reino Uni y Hulanda ta preparando pa aña academico 2020-21, pues ta pidi docente pa prepara.

Ta keda monitor e situacion continuamente, evaluando pa mira ki medida mester tuma. Nan ta sigui tur stap cu gobierno ta duna y ta adapta na esey. Pero awo, tur facultad di universidad, cu su docente ta dunando educacion riba un plataforma digital.

Pa e estudiante cu ta haya su mes cu dificultad cu e plataforma digital, nan mester acerca Universidad pa busca

un solucion. Siman pasa caba, Setar a bin cu e aparato di educacion cu por trece alivio pa studentenan; tambe nan lo ta bezig pa busca un solucion pa e reto di conexion.

E mensahe di Thode, ta cu universidad y tur otro scol ta demostrando cu educacion ta mas cu un edificio of e momento di haya les fisicamente. E ta pa comunidad tuma na cuenta cu ainda por topa otro den un sistema virtual.

"Nos por haci reunion virtual. E ta interesante, pasobra nos ta keda hunto y sigui funciona. Por continua cu e trabou escolar, a pesar cu tin e virus. E ta un reto como nunca nos a confronta cune, pero por bisa cu na Aruba tin oportunidad pa move den e plano digital, pa duna oportunidad continuamente na comunidad. Nos ta gradici nos docente pa esey", el a expresa.

Tambe e ta duna palabra di animo pa otro scol cu ta sigui nan preparacion pa duna les. Keda stimula pa sigui bay halto y no perde interes den estudio, probecha oportunidad cu tin tempo liber pa 'desaroya bo mes y nutri bo mente'.

Pa tur estudiante di Universidad di Aruba, of cualkier persona cu kier tin mas informacion, por sigui Universidad di Aruba via rednan social of nan website. E plataforma interno Stone ta ser usa pa keda comunica cu cada estudiante.

Cientificonan Brasileño a identifica medicina cu por detene reproduccion di coronavirus

BRASILIA (Infobae) - Investigadonan Brasileño a constata cu Atazanavir, un medicina usa pa tratamento di pashent cu HIV-sida, tin eficacia pa detene e reproduccion di SARS-Cov2, e virus cu ta provoca enfermedad di COVID-19, segun fuente científico a informa

dialuna ultimo.

Estudionan di Fundacion Oswaldo Cruz (Fiocruz), e centro di investigacion medico mas grandi di Latino America y cu tin vinculo cu Ministerio di Salud di Brasil, a constata cu Atazanavir ta capaz di detene e multiplicacion di e virus y cu tambe ta

reduci e proceso di inflamacion den e pulmon di e pashent cu ta contagia.

E medicina 'a reduci e produccion di proteina cu tabatin vinculo cu e proceso di inflamacion den e pulmon y asina el a impedi e agravamiento di e cuadro clinico genera pa e enfermedad' Fiocruz a informa den un comu-

nicado. E resultado di estudionan a ser publica dialuna ultimo, den e plataforma internacional di investigacionnan científico BiorXiv den forma di un investigacion preliminar, manera ta planea pa investigacionnan riba uso di medicina cu ta existi pa combati e actual emergencia sanitario, Fiocruz a splica.

"E analisis di farmaco aproba caba pa otro uso ta e strategia mas lihe cu ciencia por ofrece pa yuda pa combati COVID-19, hunto cu adopcion di protocol di distanciamiento

social implementa caba", e especialista Thiago Moreno a afirma.

Segun Moreno, na e momentonan aki ta necesario pa busca alternativa pa trata COVID-19, enfermedad contra cual no ta existi vacuna ni tratamiento comprobado, especialmente entre substancianan ya proba caba y cu un nivel superior di seguridad compara cu algun molecule cu a ser sugeri pa e mesun organizacion Mundial di Salud (OMS) pa estudionan.

Ecuador: Ex-presidente Correa condena pa ocho año di prison

QUITO (Infobae) - Ex-presidente di Ecuador, Rafael Correa a wordo condena ayera diamars pa ocho año di prison como autor di e delito di cohecho agravado, pa cual e ta perde, ademas, su derechonan politico durante

25 año, segun loke un tribunal di Corte Nacional di Husticia a dicta.

E ex-mandatario cu ta biba na Belgica, a wordo sentencia pa 'ocho año di castigo cu privativa di libertad' hunto cu otro 17 persona pa delito

di cohecho, segun e organo acusado a bisa na Twitter.

E huicio a desaroya den e tres sala di e tribunal menciona na Quito y otro sala adicional di e Corte di provincia di Guayas, segun fuente judicial a precisa. Despues cu a instala e bista di e caso conoci

como "Soborno 2012-2016", 'e sala a declara su competencia y a indica cu no ta existi nulidad pa declara y ta precede pa analisa e proceso'. Ex-presidente Correa (2007-2017) a wordo acusa pa un delito di cohecho den financiacian di partido Alianza Pais, di cual e tribunal a dicta ayera diamars cu si a interveni un red di corrupcion cu a traha den su gobierno. Correa, kende ta biba na Belgica y ta procesa hudicialmente pa varios caso, a califica esaki di 'un payasada' y su defensa a cuestiona e imparcialidad di e huesnan, asina como supuesto irregularidad di procedemento den tempo y forma.

Ademas di e castigo maximo di prison regarda den e ley, e fiscal general Diana Salazar a considera necesario e pago di un reparacion economico cu lo ascende te 1.130 milyon dolar, e balor global di cada un di e contract cu a entrega den e trama di corrupcion aki.

Venezuela exportando alcohol via awa territorial Aruba

(ArgusMedia) - Venezuela lo ta exportando un fluho constante di methanol a traves di transferencia di 'barco pa barco' cerca di Aruba, generando un entrada continuo cu ta fuera di control di e sancionnan Mericano, segun un noticia treci pa agencia notici-ero Argus Media.

Produccion di methanol ta bin di e compleho di Metanol de Oriente (Metor), di 1,6 miyon tonelada pa aña na Jose, e terminal na Anzoategui cu ta mas conoci pa exportacion di crudo, y tambe pa e instalacionnan di mehoracion y mezcla di crudo di Orinoco.

Metor ta un joint venture entre e subsidiario di Pdvs Pequiven y su partnernan mayoritario Mitsubishi y Mitsubishi Gas Chemical. E planta Metor 1 di 750.000 ton/aña y Metor 2 di 850.000 ton/aña ta ricibi cerca di 160miyon pia cubico pa dia di gas natural di e planta di gas di Pdvs, PDV Gas. E gas ta bin di distrito Anaco den parti oriental di Venezuela.

Di acuerdo cu fuentenan di despacho maritimo, e transferencia di 'barco pa barco' ('Ship to Ship Transfers') di methanol Venezolano ta tuma lugar regularmente cerca di Aruba. Pa minimalisa riesgo pa e barconan y pa e cumpradornan, e traspaso di un barco pa otro a bira mas comun desde cu Merca a impone sancion riba Pdvs na januari 2019.

Den e ultimo operacion, e barco bao bandera di Panama Kokuka Glorious a carga alcohol na Jose y a pasa su carga den awanan di Aruba pa e barco bao bandera di Marshall Islands Fairchem Katana, cu a sali dia 4 di april pa Rotterdam. E promer barco tabata di bolbe na Jose dia 6 di april, pero manera mayoria di tankernan den awanan di Venezuela, el a paga su transponder.

Entre diferente uso, methanol ta un componente di MTBE, cu Pdvs ta usa tradicionalmente pa traha gasolin. Casi henter Pdvs su capacidad di refina ta paralisa despues di añanan di negligencia y falta di piesa y crudo, contribuyendo na e actual escasez di combustible na Venezuela.

Venezuela su exportacion

di methanol ta coincide cu e paro y reduccion di produccion di otro productornan, como consecuencia di e demanda mundial reduci. E empresanan di e sectornan mas afecta por utiliza un facilidad di credito te hasta 100,000 florin. E empleadonan cu a wak e ingresonan disminui di su compania na mas di 25% lo ricibi asistencia financiero a traves di Esquema de Emergencia

di Bridging pa cubri 20 pa 80 por ciento di e costonan di laboral mensual.

Pero cu e condicion di cu e empleadonan permanente no ser dispidi. Pa motibo e principio basico di e pakete di solidaridad di gobierno ta e despedida masivo di empleadonan lo ser evita den e proximo tres lunanan. E propietario di empresanan chikito y e empresario sin personal lo ricibi 1,335 florin pa luna, pero e prioridad ta cu esunnan cu ta ricibi golpinan duro, manera e transporte publico , comercio minorista y entretenimento.

Minister Mc William a señala cu e mayoria di institucionnan financiero ta atende clientenan den tempo di crisis y ta mas flexible den terminonan di reembolso di prestamo.

Pero e minister tambe ta preocupa pa motibo cu no tur e banconan no ta sigui e policy y duna nan clientenan mas espacio pa paga nan debenan.

Ayera gobierno a lansa NOW pa yuda e empresanan paga salarionan mientras e crisis ta continua. E empresanan cu nan turnover a cay na zero tambe por claim 90% di nan fractura salarial di estado. Un caida di 20% ta duna e empresa derecho na 10% di ayudo. Mas o menos 35,000 compania a acerca e fondo di emergencia dialuna, den linea cu e pronostico di gobierno. E minister di asuntunan social, Wouter Koolmees, a pidi e empresanan cu a solicita ayudo pa paga nan personal temporal tambe.

Hulanda ta mira aplicacion como yabi pa suavisa medida

AMSTERDAM (Dutch-News.nl) - Hulanda ta buscando manera pa introduci dos aplicacion como parti di e clave pa controla e plamamento di coronavirus, prome minister Mark Rutte y minister di salud Hugo de Jonge a bisa durante un conferencia di prensa diamars.

“Expertonan a bisa nos cu identifica fuentenan y busca e contactonan bek lo ta crucial pa suavisa e reglanan sin subrecarga e hospitalnan”, Rutte a bisa. “Pero ainda ta tempran y e privacidad ta e yabi”, e prome minister a bisa.

E aplicacionnan un di cual lo alerta personanan atraves di bluetooth si nan tabata en contacto cu un persona cu tabatin coronavirus, y un segundo cu lo mantene e pashentnan potencial den contacto cu mediconan, nos ta investigando mas, Rutte a bisa.

E aplicacionnan lo forma parti di e strategia di prueba mas intensivo cu ta trata di introduciendo actualmente. Nan lo ta efectivo Esaki lo tuma parti di e trabou di e huntanan di salud local cu no tin e capacidad di busca tur e contactonan potencial di coronavirus.

Ora cu a puntra si personanan lo ta obliga di instala e aplicacionnan den nan celular, e minister di salud De Jonge, a bisa cu esaki lo ta importante cu e mayoria di cantidad posible di personanan lo usa.

“No tin sentido p haci tur e testnan si no lo haci nada cu e resultadonan”, el a bisa. “Nos ta analisando si por existi tur hende pa haci esaki”.

E siguimento di contacto ainda ta ser realiza na norte di e pais, na unda tin relativamente poco caso di coronavirus, e minister a bisa.

Melva Croes-Yáñez:

Maneho di condicionnan(Neuro)Cognitivo na cas durante COVID-19 crisis

ORANJESTAD - Mi nomber ta Melva Croes-Yáñez, Presidente y consehero di Fundacion Alzheimer Aruba. Ami, mescos cu abo tambe y tur otro hende na Aruba y mundo henter, ta na cas den e crisis mundial, causa pa e Covid-19/Corona Virus. Tur esaki pa nos por yuda proteha nos sernan keri, esnan vulnerabel den nos comunidad, incluso mayoria di nos grandinan, contra e infeccion causa pa e virus aki.

E ultimo 2 siman nos a ricibi hopi yamada di familiarnan, cuidadonan na cas.

Esaki a pone cu mi a haya ta prudente pa comunica cu comunidad y transmiti algun tips pa con por anda cu diferente situacion cu por presenta nan mes cerca famia/cuidado di e persona cu un of otro forma di deterioro (neuro)cognitivo.

Maske ta trata di un situacion cu un comienso y un fin, nos mester comprende cu e situacion cu nos ta pasando den ta uno hopi dificil pa tur hende y specialmente pa esnan di edad avansa y cu mas chens di core riesgo di contrae un infeccion y desaroya complicacion grave di salud, y/of na circunstancia social, economico of financiero.

Cada situacion di aislamiento por trece cune reaccion emocional, miedo intenso, ansiedad, impotencia, angustia, irritabilidad, rabia, falta di concentracion, problema pa drumi, depresion, etc. Esakinan tambe por observa cerca hende saludabel den isolacion forsa (instituto) y/of exclusion social y soledad (no ricibi bishita) y esnan bou stress continuo.

Awo, imagina bo mes con dificil lo por ta pa un persona cu un of otro condicion cognitivo, den isolacion.... y riba dje cu cambianan drastico den su custumber diario (di por ehempel diripiente NO por mira su (bisa) nietonan of sernan keri tur dia). Diripiente e tiki estructura cu e tabatin den su bida a para bira un caos completo. Mayoria di hende cu un of otro condicion (neuro)cognitivo cu of sin deterioro mayor, tin problema pa comprende kico ta pasa den su alrededor. Pa nan por expresa verbalmente

kico of con nan ta sinti of pasando aden tambe ta un reto.

Hopi di nos ta comparti e situacion actual di kico ta pasando, cu otro nan y tambe dilanti di e persona aki. Pero mester realisa cu e persona aki, despues di un rato, por hasta lubida mes di kico ta trata. Na otro banda sa pasa cu e persona aki lo tende algo of corda un palabra specifico di e combersacion y saca esaki di su contexto y interpreta esaki completamente robes. Esaki por genera inkietud, miedo, angustia, hasta agresion cerca dje. P'esey mester limita e informacion cu nos ta comparti cu of dilanti di e persona aki.

Den prome instancia e persona cu tin un problema cognitivo of ta sufriendo di un of otro forma di trastorno neurocognitivo, ta comprende e idioma corporal miho cu esun verbal.... Por ehempel, si bo ta drenta of acerca e persona aki cu un mascariya ("mondkapje") of cu un bril di seguridad bisti, of ta comporta nervioso, span-ta... asina tambe e persona aki lo experiencia bo y lo actua conforme, hasta den un estado mucho mas eleva di agitacion. E pakico di esaki ta pasobra e no ta comprende e cambio repentino aki cu ta conflictivo cu su punto di referencia. E comportacionnan aki tambe por tuma luga ora e persona nota cu su ser(nan) keri di custumber diripiente no ta bin bishit'e mas. E por cuminsa sinti nan falta y keda puntra pakico nan no ta bin mas, hasta bira preocupa cu algo por a pasa. Atrobe, esaki tambe por causa inkietud, ansiedad y hasta agresion. Comportacionnan cu esnan den su alrededor por interpreta erroneamente, sigur ora no sa kico ta ocasiona e comportacion 'foi sla' aki. Hasta duna calmante of tambe remedi pa drumi etc. cu na su turno lo haci mas malo cu bon.

Un otro ehempel ta: esun unda tin diferente cuidado cu lo cambia turno den weekend of anochi. E cuidado cu ta bay cas pa bolbe anochi of den fin di siman.

Mester confia cu e cuidado ta cuida su mes bon ora e no ta cerca e persona cu un di condicionnan aki. Un sugerencia lo por ta pa e cuidadonan keda drumi por lo

pronto pa evita cu e switchmento por transmiti e virus COVID-19 cerca e persona aki. Teniendo semper na cuenta cu e cuidado tambe por yega e punto di stress halto, di cansancio, etc.

Manera ya menciona un nivel halto di stress tambe por ocasiona, frustracion, eror, problema cu concentracion, etc. cerca e cuidado tambe. Pa contra aresta esaki pa e momentonan aki, por pensa riba mas comunicacion (Whatsapp, etc.) cu un miembro di famia di e hende den bo

cuido na cas. Por pensa di organisa e ambiente di tal forma cu chens pa toca musica, wak un bon cine (sin agresion) na television hunto, tambe ora e persona ta sosega of drumi. Por pensa tambe di organisa pa e hende bou di bo cuidado por comunica via 'Whatsapp', 'Skype', etc. cu e sernan keri di custumber.

NO hiba e persona aki na cas di e cuidado of cerca nietonan, durante e crisis aki. y tene bo mes na e reglanan vigente di keda na cas. Si e cuidado no por haci e switch di

keda na cas di e persona 24/7 ta bon pa opta pa un famia keda e oranan pa e cuidado por descansan ... esaki te ora e situacion di crisis aki normalisa. Manera di custumber Fundacion Alzheimer Aruba lo keda informa comunidad di e preocupacionnan cu por reina cerca hende cu condicionnan (neuro) cognitivo y con anda cu esakinan. Esnan cu ta interesa pa haci un cita telefonico por manda su mensahe riba nos punto di contacto (whatsapp) 592 8416

Durante e prome dianan cu e ley a bin na vigor manera (Toque de Queda), miembronan di Cuerpo Policial a haya nan mes involucra den varios disputa innecesario. Nos kier a enfatisa cu diferente incidentenan cu a tuma luga ta uno preocupante. “Hunto nos t’e solucion”, ta e nomber den e proyecto. Hunto como pais nos lo tin cu pasa e momentonan dificil pa asina hunto nos por sali for di dje. Algun bario lo haya sorpresa di bo Amigo Polis. E meta principal ta pa nos por conecta hunto bek. Booshi Wever (UPP):

‘No ta momento pa hunga victima dilanti Hulanda uzando e situacion di coronavirus’

ORANJESTAD - Mun-do henter ta pasando un periodo sin precedente. Mas cu nunca ta keda demostra con hopi nos ta depende di otro y cuanto nos mester di otro. Pero manera cos ta muera, cu despues di e pandemia aki nos mundo lo no ta mescos mas, pues manera ta wordo bisa cu lo no ta “business as usual”.

Tambe nos tin di realisa cu como pais chikito nos lo mester di e man di ayudo for di otro paisnan, y den e caso aki Hulanda lo ta parece esun mas logico. Nos tin di realisa

tambe cu e yudansa aki sigur lo no ta sin condicion.

Pero UPP a tuma nota si di un rumbo cu e discusion ta wordo hiba aki na Aruba, nos ta kere cu NO ta esun corecto. Esta, di tira culpa riba otro uzando argumentonan cu den nos concepto no ta yuda resolve nos problemanan. Aki nos ta referi na e hecho cu Hulanda ta dispuesto pa yuda, pero e yudansa lo NO ta un “regalo”. En berdad a base di articulo 36 di nos Statuut nos tur, como parti di Reino, mester yuda otro. Hulanda como “madre patria” y esun cu su situacion

economico ta miho, obviamente ta e prome cu nos ta acerca pa e yudansa a base di articulo 36. Pero nos mester ta basta ingenuo di kere cu Hulanda lo bay djis “schrijf uit” un “blanco cheque” pa e suma cu e.o. Aruba ta pidi.

E scopmento contra Hulanda a cuminsa ora Hulanda a declara cu e lo coopera, pero cu e ayudo lo no ta un “gift”. Nos por a lesa con algun miembronan di e Parlamento “nobo” ta usa argumentonan hopi fofo pa condena Hulanda. Ta menciona e.o. cu Hulanda ta dispuesto pa regala Italia y Spaña y nos no. Otro ta yama esaki abuso di poder.

Deliberadamente ta desinforma pueblo atrobe. Hulanda a bisa hopi cla cu ta dispuesto pa yuda e paisnan ey, pero e ayudo aki lo mester bay den un “Coronapot”, caminda tur miembro di e Comunidad Europeo lo mester participa y na unda reglanan di control ta tuma luga. Pues ey tampoco lo bira un “blanco cheque”. E reglanan aki ta poni den varios decretonan na unda e reglanan di Good Governance ta vigente. Ta mas cu obvio cu exponentenan politico na Aruba ta asumi atrobe e rol di victima y ta polarisa, pa tapa cu Aruba mes no a y ni ta cumpliendo cu reglanan di Bon Gobernacion. Gobi-

ernonan, sistematicamente, a keda “stel uit” tumamento di accion concreto pa e.o. garantisa Good Governance.

Den e momentonan dificil pa nos, Hulanda lo hunga un rol hopi importante. UPP no tin duda cu Hulanda lo ta dispuesto pa duna Aruba un man. Loke si nos mester realisa cu for di 2014 Hulanda a mete den asuntonan interno di pais Aruba dor di e debilidad di e gobierno di Aruba dirigi pa Mike Eman e tempo ey (AVPOR). Y MEP den oposicion tabata pidi pa bin cu solucionnan structural y duradero pa nos finanzas publico! E tempo ey parlamentarionan di MEP tambe a insisti cu lo mester cuminsa na institui reglanan di Bon Gobernacion. Nos di UPP e tempo di “Ensure” a urgi na tur partidonan politico pa uni y asina den un bloke nacional, hunto cu gremionan, atende cu Hulanda, despues cu nos yega na palabracionnan concreto aki na Aruba prome.

Pero, dicen gobiernonan di AVPOR y POREDmep den 6 aña no por a introduci e reglanan estricto di Good Governance? E contesta ta hopi cla. E politiconan den e gobiernonan aki kier sigui derocha placa y no lo permiti pa nan mannan wordo mara. Si nos a percura pa hunto a

goberna drechi, mescos cu paisnan civico si ta haci, awe e situacion lo ta otro. Ya caba nos lo por a fia placa na un interes abou y nos pais lo ta ser goberna drechi. Pero NO, nos kier sigui e.o. nombra hende den servicio di gobierno, nos kier sigui otorga contractonan lucrativo na friends & family etc. etc. y awor e coronavirus a bin pa haci e situacion pio ainda.

UPP ta kere cu situacion cu a presenta aki, mester sirbi como un “wake-up call” pa nos tur. Nos mester realisa cu a yega e momento pa nos “re-diseña” e rumbo cu nos kier pa nos pais Aruba bay! Esaki por wordo haci den un Dialogo Nacional cu representacion di tur sector aki na Aruba. Y aki ta unda cu mester cuminsa na introduci reglanan di Bon Gobernacion pa mara man di e politiconan. Pa di e manera aki tambe nos como bon Arubianonan regla nos asuntonan “for once and for all”, mandando asina e señal cla y raspa pa Hulanda cu nos ta “take care” di nos mesun asuntonan.

Nos mester stop di usa e coronavirus como un kapstok y hunga rol di victima, cu e speranza cu Hulanda lo cay sin mas pa nos. E bala ta den nos cancha awor, ban pone Aruba hunto “back on track”!

Parlamentario Darlaine Guedez-Erasmus (MEP):

“Termination Agreement ta un speranza pa Aruba”.

ORANJESTAD - Reci-entemente a yega Parlamento un vaststellingsovereenkomst Termination Agreement “Acuerdo di terminacion”, pa asina Parlamento duna gobierno e apoderacion mediante un Ley LV houdende machtiging pa Ministerian firma e Termination Agreement cu Citgo.

E Termination Agreement tin dos componente:

1. E garantia di 150 miyon dollar
2. Estudio riba medio ambiente y posible contaminacion riba e tereno

1. Garantia di 150 miyon dollar

Citgo Aruba mediante PVDH (un holding di PDVSA) di acuerdo cu art 11.3 di e con-

tracto oficial Definitive Participation Agreement mester a duna na inicio di e proyecto (na 2016) un garantia di 150 miyon dollar na Refineria di Aruba pa garantiza su obligacionnan. E 150 miyon dollar aki lo ta un garantia pa ora mester desmantela. Pero pais Aruba no kier desmantela e refineria mirando cu nos ta buscando un otro partner.

2. Estudio riba medio ambiente y posibel contaminacion riba e tereno

A firma un acuerdo cu lo laga un compania externo haci un investigacion desde cu Citgo a drenta October 2016 pa maart 2020. E tereno y e parti cu Citgo lo a contamina den e periodo specifico aki, lo wordo despena y a keda calcula maximo na 25 miyon dollar. E realidad ta cu Citgo no a opera mes y daño real na

e tereno lo ta un suma mucho mas abou.

Umbrella Dispute Agreement

Ta importante pa menciona cu por a scoge tambe pa otro acuerdo, Umbrella Dispute Settlement Agreement. Escogiendo pa umbrella dispute agreement den e circunstancianan actual lo ta un caminda demasiado largo, dificil y costoso. Pais Aruba lo mester bringa esaki den arbitraje na New York sin garantia cu lo gana e caso y mientras por dura pais Aruba alrededor di 5 aña. Tempo cu den e circunstancianan di pais Aruba, no tin!

Termination Agreement

Ta importante pa menciona cu pais Aruba no ta regala Citgo 340 miyon florin. Ta

asina cu Gobierno di Aruba a logra den e negociacion pa Citgo cumpli cu e pago di 28 miyon florin di impuesto cu nan debe y a percura pa tur empleado haya un paquete segun nan añanan di servicio. Cu e escogencia di Termination Agreement ambos partido lo exonera otro y pa

Aruba lo ta mucho mas lihe por habri combersacion cu otro partners y yega na ideanan nobo. Esaki sigur ta crea oportunidadnan economico nobo cu por ta sumamente importante den e momento dificil aki cu nos pueblo ta pasando aden.

Fraccion di AVP:

‘No por maluza e crisis pa trapa riba democracia’

ORANJESTAD - Fraccion di AVP den Parlamento a entrega un carta pa Presidente di Parlamento expresando nan preocupacion cu Gobierno di Aruba ta maluza e situacion rond di e crisis di corona pa haya un aprobacion di Staten cu e fin pa termina e acuerdonan firma cu Citgo, unda Land Aruba ta tuma over e Citgo. “Nos a manda un carta identico pa Gobernador di Aruba, como tambe gremionan sindical y comercial na Aruba,” lider di fraccion, Marlon Sneek a informa. “Asina tur hende ta na altura di nos posicion pa loke ta trata e intencion nan di Gobierno.”

“Door di exonera Citgo di tur su obligacionnan y hala un banda su responsabilidad e suma astronomico di US \$175 miyon ta den wega. Un suma cu ta consisti principalmente di e placa exonera conforme acuerdonan na balor di US\$150 miyon pa dañonan haci na Pais Aruba si yega na un finalisacion prome cu loke a keda acorda den acuerdonan firma na 2016,” e carta ta bisa.

Den su conseho Raad van Advies ta señala cu ningun caminda ta indica cua ta e interesnan financiero of comercial a wordo regla den e Acuerdo di Terminacion entre Citgo di Gobierno di Aruba, ni tampoco e balor di placa si ta trata un interes comercial. “Den tur esaki Gobierno ta pidi Parlamento pa dun’e un carte blanche pa yega na un acuerdo di terminacion cu Citgo na un balor di US\$175 miyon sin cu acuerdo ta parti di e trayecto di legislacion,” segun fraccion di AVP.

Ta custumber cu ora cera acuerdonan cu ta di interes nacional of cu mester un acuerdo di Parlamento prome cu e ta legal, esakinan por lo menos ta wordo entrega na Parlamento pa e miembronan por studi’e. Esaki tabata e caso prome cu tratamento di e contractnan di Citgo na 2016. Den ambos caso ta duna un splicacion detaya y si mester tecnico encuanto e contenido y intencion di dicho acuerdonan.

Segun fraccion di AVP, Raad van Advies ademá a señala cu falta un limite na e aprobacion (machtiging) pidi y cu e acuerdo mes entre Citgo cu Gobierno di Aruba no ta forma parti di e ley, manera cu e tabata e caso den pasado. Loke cu Gobierno ta pidiendo simplemente ta 'carte blanche', mescos cu presupuesto 2020, contra tur principionan di un sistema democratico, seguridad huridico y bon gobernacion.

KVK: Mester aproba cambionan di ley laboral mas pronto posible

ORANJESTAD – Aruba ta wordo confronta cu un crisis economico severo actualmente pa motibo di e “lockdown” riba tur trafico aereo desde 16 di maart 2020. Esaki ta trece cune un perdida di 10 miyon florin pa dia.

Gobierno tambe a indica den su presupuesto revisa cu e caida economico por prevalece te cu fin di 2020. Door di

esaki mester tene na cuenta un total di 3.6 milard Florin na entrada pa e resto di e aña cu lo no por conta cune. Y aki ta unda cu Camara di Comercio y Industria (KvK) ta propone cu e siguiente cambionan mester wordo aproba mas pronto cu ta posibel den e Leynan Laboral di Aruba.

Aruba ta wordo confronta cu un crisis economico severo pa motibo di e “lockdown”

riba tur trafico aereo desde 16 di maart 2020. Esaki ta trece cune un perdida di 10 miyon florin pa dia. Gobierno tambe a indica den su presupuesto revisa cu e caida economico por prevalece te cu fin di 2020. Door di esaki mester tene na cuenta un total di 3.6 milard Florin na entrada pa e resto di e aña cu lo no por conta cune.

Pa por mitiga e posibilidadnan pa un crisis social tuma luga pa via di e crisis economico, e ta importante pa e Leynan Laboral bira mas flexibel. E ta crucial pa e dunado di trabou ta tuma e decisionnan corecto y ta mas flexibel pa asina e daño cu sector di labor ta wordo confronta cune keda na un minimo. E siguiente puntonan por yuda yega na esaki.

1. Un peticion na e Director di Directie Arbeid en Onderzoek (DAO) pa por termina un acuerdo laboral cu un empleado cu, mirando cu nos ta tratando un situacion di 'force Majeure', pa por wordo procesa y aregla. Di e forma aki e

negoshinan por krimp in den tempo cortico pa por sobrevivi e periodo nos dilanti.

E decision di Gobierno pa no duna permiso pa por termina un acuerdo laboral, tin como consecuencia cu e empleado tin cu wordo kita di trabou of wordo manda cas sin pago. Den un situacion caminda e empleadonan den un forma masal, dicidi pa hiba e negoshi corte, lo causa cu e negoshi lo bay declara bancarota. Esaki lo causa mas daño na nos economia. Ni e empleado ni e dunado di trabou tin beneficio den un situacion caminda un negoshi tin cu cera y probablemente lo no habri su portanan mas. KvK ta opina cu lo maximo mester wordo haci pa por mantene e entidad registra na DEACI/KVK pa asina e reglanan permiti e negoshi por reactiva y brinda servicio realistico.

2. Elimina articulo 1613 x lid 2 BWA. Esaki ta trece cune cu un dunado di trabou por tuma un empleado den servicio pa un tempo limita y renobabel. E ta importante

mirando cu actualmente negoshinan no tin ningun garantia riba e viabilidad di nan negoshi. Alabes ta brinda e posibilidad pa negoshinan cu a krimp in durante e periodo di crisis pa por purba recupera den un forma flexibel y cu cautela. Si a caso ley no por haci posibel cu un empleado por drenta den servicio pa un tempo limita, e ora e recuperacion economico lo bay tuma hopi mas tempo. Fuera di esey, dunadonan di trabou lo tuma un posicion mas cauteloso pa tuma empleadonan nobo den periodo di incertidumbre economico, si no tuma pasonan pa flexibilisa e periodo y e intensidad di labor.

Introduccion di flexibilidad laboral ta facilita recuperacion economico. Di e forma aki, sector priva ta sigui riba e mes liña cu Pais Aruba cu si tin acuerdonan laboral pa un periodo defini pa su empleadonan. Ta remarcabel cu Aruba ta unico pais den Reino cu e limitacionnan aki cu ta aspectonan anticua.

Igualmente Camara di Comercio (KvK) a demanda di gobierno pa bin cu cambio y asina flexibilisa nos ley laboral pa atende e desafionan cu nan negoshinan ta pasando aden pa e falta di actividad economico.

Contrario na loke tabata aspiracion di pais Aruba di haya un donacion di Hulanda via

fondo di ayudo di Union Europeo, y otro parti via credito den mercado internacional, ya caba premier Wever-Croes a yega di bisa cu e donacion aki no ta posibel. "Ta bay presta si, pero no duna," el a declara. Esaki kiermen cu e fondo di emergencia economico/social cu pais Aruba ta buscando di 1.3 biyon florin lo ta un fiansa y no un donacion.

Tambe ta conoci internacionalmente e descontento cu a produci e posicion di Hulanda pa medio di su minister di Finanzas, Wopke Hoekstra kende su comentarionan a genera un division entre e paisnan di e bloke Norte di Europa y esunnan di e bloke Sur.

Segun prome minister, ya caba gobierno di Aruba a yega di vocifera cu no ta di acuerdo cu Hulanda su posicion. "Nos a pone un banda, pasobra nos ta buscando solucion," el a bisa den su de-

claracion di diabierna anochi ultimo.

E mandatario a declara cu e posicion di gobierno di Aruba ta cu nan ta buscando tur forma posibel pa yega na e fondonan cu nan mester yega pa bringa cu e virus aki, y su plamamento y tur e gastonan cu tin involvi. Tambe pa percura cu tin fondo pa yuda esnan cu a perde empleo pa medio di FASE (Fondo di Asistencia Social Economico).

Gobierno kier destina parti di e fondo di emergencia pa yuda comerciantenan y companianan chikito y mediano cu no por wanta e golpi cu e situacion di crisis aki a trece cune. Nan ta representa mas cu un 90% di comercio di nos pais. Sinembargo minister Xiomara Maduro a yega di informa cu e suma di yudansa y hasta e forma cu gobierno lo por brinda yudansa na comercio na e momento aki ta depende di e yudansa di

Reino.

Igualmente cu e fondo di emergencia aki lo permiti pa gobierno por dispone di

placa pa asina nan por reconstrui nos economia y nos pais bek y asina atende cu e crisis cu e Covid-19 a ocasiona na Aruba.

Sinembargo, haciendo e calculacion, Tebas ta consciente cu hasta si por tene weganan cu fanatico den stadion, e escenario cu e no

ta sinti ta probabel a corto plaso, e perdida toch lo ta extremo. El a bisa cu e impacto economico, incluyendo entrada genera di competencia Europeo, cu e clubnan Spaño lo perde ta 1 biyon Euro. “Si nos hunga pero sin fanatico, lot a 300 miyon. Hasta si nos hunga cu fanatico, e daño ya causa ta 150 miyon euro.”

Tebas a revela cu La Liga a ricibi 90% di su pago di derecho di transmision. Pero cu 28% di e temporada faltando, lo mester duna un reembolso grandi si no hunga ningun wega.

“Esey ta nifica cu e clubnan tin dos opcion: Un legal den forma di suspension temporal - ocho club di e dos division top a registra pa ta parti di e acuerdo aki - y reduccion di salario na 70% pa dia. Otro clubnan tin cu yega na acuerdo individual cu hungadonan”, segun Tebas,

UE trahando riba guia di privacidad pa tracking di ubicacion di celular pa COVID-19

UNION EUROPEO (CNET) - Gobiernonan a cuminsa tap data di geo-ubicacion di celular pa yuda track e pandemia, y defensornan di privacidad ta preocupa pa e falta di restriccion formal.

Hunta Europeo pa Protec-

cion di Data (EDPB) a bisa ayera cu lo crea guia pa colecta data pa vigilancia mara na e pandemia di coronavirus, incluyendo geo-ubicacion, contact tracing y informacion di salud.

Gobiernonan rond mundo ta depende riba data di ubicacion di celular pa yuda track e brote di coronavirus, sin ningun restriccion of mandato oficial riba con por usa e data en cuestion. Paisnan incluyendo Singapore, Reino Uni y Israel a desaroya nan propio app pa track movimiento di hende y examina con COVID-19 ta expande, y e unico proteccion di privacidad ta

basa riba confia promesa di gobierno.

A traves di Europa, companianan di celular manera Vodafone tambe a bay di acuerdo pa comparti e data di ubicacion cu nan a colecta, ofreciendo esaki pa gobiernonan track esfuersonan di distanciamiento social y yuda desaroya politicanan di salubridad publico.

E incertidumbre tocante e programanan aki a laga defensornan di privacidad preocupu cu e podernan di vigilancia otorga durante e pandemia lo dura mas cu e crisis. EDPB a bisa ayera cu a asigna su subgruponan di experto pa

desaroya guia pa con por y no por usa data di geo-ubicacion durante crisis di COVID-19. E grupo no a duna un fecha limite pa ki momento e guia aki lo ta disponibel.

“EDPB lo move rapidamente pa duna guia riba e topiconan aki dentro di e tempo mas cortico posibel pa yuda sigura cu ta usa tecnologia di un forma responsabel pa sostene y cu speransa gana e bataya contra pandemia di coronavirus”, presidente di EDPB, Andrea Jelinek a bisa den un declaracion. “Mi ta kere fuertemente cu proteccion di data y salud publico ta bay mara na otro.”

Tres piedra espacial mira ta kima durante tres ora e mesun anochi

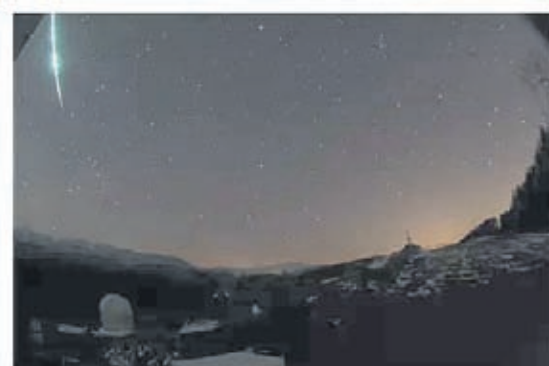

EUROPA (CNET) - Un trio di bala di candela a kima riba e mesun parti di mundo riba e mesun anochi. Si bo por a bula riba atmosfera superior di Tera y djis keda mira for di ariba, bo lo kere cu e continente tabata bou atake di piedra espacial siman pasa.

A mira tres meteoroid kimando den atmosfera riba Belgica y Alemania algun ora for di otro. De hecho, e prome dos di e trio a cende e shelo riba Belgica den menos di un ora. Fripon (French Fireball Recovery and InterPlanetary

Observation Network), cu ta inclui un camara ‘all-sky’ na Brussels, a detecta e par.

Red di deteccion di meteor CAMS di NASA tambe a detecta e meteooronan y e di tres bala di candela di e anochi riba sur di Alemania tambe a ser mira pa un grupo chikito di testigo.

No ta tuma demasiado pa pone un show na momento cu pida di desperdicio espacial ta dal den atmosfera. Pidanan di tamaño di un piedra chikito por crea e ‘shooting stars’ asocia cu meteor shower, mientras e pidanan

mas grandi ta crea bala di candela briyante.

Cu tres meteoroid kimando den atmosfera riba e mesun parti di mundo e mesun anochi, ta probabel cu nan

tin historia comun. Nan por representa tres fragmento chikito cu tabata parti di un asteroid mas grandi, pero nunca nos lo sa sigur.

April lo por ta un bon luna pa

mas meteoroid. E Lyrid meteor shower ta programa pa peak mas laat den e luna, pero e balanan di candela por aparece na cualquier momento, dia of anochi, pues tene bo wowo mirando shelo!

WhatsApp ta limita ‘forward’ mensahe pa combati desinformacion

MERCA (CNET) - WhatsApp ta limitando ‘for-

ward’ mensahe, den un es-

fuerzo pa controla e trans-

misión di desinformacion vincula na brote di coronavirus. Si bo haya un mensahe cu ya a forward mas di cinco biaha, bo por forward esaki solamente na un chat cada bes.

“Nos sa cu hopi usuario ta comparti informacion util, como tambe video dibertido, meme y reflexion of oracion cu nan ta haya importante”, WhatsApp a bisa den un post riba blog ayera. “Sinembargo, nos a mira un aumento significativo den e cantidad di forward, cual usuarioman a bisa nos por sinti abrumador y por contribui na transmission di desinformacion.”

Anteriormente, por a manda mensahenan asina na cinco chat cada bes - un limite cu e servicio di mensahe propiedad di Facebook a impone aña pasa, despues di e vio-

lencia y linchamento na 2018 na India, cu tabata vincula na informacion falso cu a plama riba e app.

Por comparti mensahenan un pa un, pero WhatsApp tin speransa cu e friccion agrega lo descurasha hende di casualmente plama rumor. E compania tambe ta prohibi alrededor di 2 miyon cuenta pa luna pa intento di manda mensahenan den gran cantidad of automatiza.

WhatsApp a forma un team cu oficialnan di salud pa crea un hub di informacion di coronavirus, y a provee un donacion di \$1 miyon pa combati desinformacion conecta na e malesa. Tambe segun reportenan ta test un característica di fact-checking pa mensahe.

Carolina Span:

‘Reach out na famia of ser keru cu tin autismo’

ORANJESTAD – Dia 2 di april tabata dia internacional di conscientisacion di autismo. Fundacion Autismo Aruba a splica tocante e fundacion y con pa ta consciente di persona cu autismo den temponan di crisis.

Carolina Span, miembro di fundacion autismo como investigado ta comparti cu e dia aki ta celebra rond di mundo caminda na Ingles ta bay cu mensahe ‘light up blue’, cende un luz blauw.

Riba dia 2 di april, nan a curasha tur hende pa bisti na blauw, cende nan cas of negoshi cu luz blauw. Di e forma aki ta duna idea pa crea conscientisacion visual, pa fomenta mas ‘comprension y aceptacion’ di persona autista den comunidad, ‘pa nan por yega na inclusion den comunidad’.

Span ta bisa cu e situacion den e fundacion ta bayendo bon. Sinembargo, na Aruba no tin un bista di cuanto hende tin autismo. “E no ta algo cu por asina lihe, pasobra mester sa e diagnosis di e

persona. Mester pasa den un proceso. Tin Respaldo, psiquiatra di mucha of psicologo cu ta haci test preliminar.”

Span ta bisa cu e cifra no ta conoci. Pero e ta remarca cu si mayoria di persona cu ta ricibi un diagnostico, e prome cos cu nan ta haci ta busca ayudo. E segundo paso ta pa busca e fundacion.

Cu e proposito aki e fundacion a lanta como un plataforma pa yuda e mayor den e proceso ora tin un yiu cu autismo, pues pa yuda mayornan na Aruba pa busca y haya diagnostico pa nan yiu. “E ta algo bon, pasobra e momento ey nan ta compronde pakico e yiu of ser keru ta di cierto manera, y cu prome nan tabata den limbo.”

E ta agrega cu AZV no ta cubri tur e tratamento cu un persona cu autismo mester, y hopi biaha mayornan no sa ki stap pa tuma. Span ta bisa cu mas hoben e persona ta a momento di ricibi diagnostico, ‘mas grandi e chens’ pa e mucha of hoben adapta su mes y bira un miembro productivo di sociedad cu por funciona

na su maximo potencial.

Pa e motibo aki, e fundacion ta keda muestra riba e importancia pa e mayor por tin e diagnostico for di trempan. “Por ta bon pa haci, sinembargo, por ta ‘eng’ pa e famia.” E fundacion ta zorg pa conecta e famia cu profesionalnan cu por duna ayudo.

Ademas, nan tin un grupo di sosten den cual mayornan por comparti cu otro mayor cu ta den e mesun situacion, duna otro ‘tips and tricks’ di kico pa traha cune y kico pa evita. “Nos ta wanta e comunidad di autismo.”

Pa e situacion actual inusual cu mundo ta pasando aden cu pandemia di coronavirus, Span ta bisa cu esaki no ta facil pa niun persona, y esaki ta conta pa persona cu autismo. Un persona autista tin un rutina, y cu e situacion esaki por cambia, conduciendo na inseguridad di e persona ya cu e no sa con pa sigui cu su rutina.

Span ta splica cu pa e mayor e por ta dificil, pasobra nan no por contesta of splica nan yiu

ki tempo henter e situacion lo cambia bek, ya cu ‘nos niun sa con largo e ta bay dura’. “Nos conseho ta pa check hende cu tin un familiar cu autismo pa mira con ta tratando cu e situacion.”

Mayornan mester compronde y prepara cu muchanan cu autismo lo tin momento di ‘meltdown’ of lo ripara cambio den nan yiu. Tambe mester compronde cu si ta un situacion fastioso pa e mayornan, ta pio pa un persona cu autismo pasobra nan tin dificultad pa custuma y adapta.

Span ta keda bisa cu mester sigui comparti e mensahe

di bondad. Si nan ta sinti cu mester comparti cu otro den necesidad special tambe, pa ta consciente cu pueblo ta pasando den un momento dificil. “E ta dificil, y no por mira ki dia e ta yega na un fin.” Sinembargo, e ta bisa cu por haci algo bunita pa otro.

Pa dia di conscientisacion, a bin cu un reto di ‘bondad ta conta’. Nan tin partner den Latino America manera na Argentina, Brazil, Colombia, Peru y Merca, cu ta campaña pa comparti bondad. E campaña ta manda un mensahe of video pa curasha hende cu tin autismo.

Trump removes watchdog tapped for \$2T virus rescue oversight

Continued from Front

"President Trump is abusing the coronavirus pandemic to eliminate honest and independent public servants because they are willing to speak truth to power and because he is so clearly afraid of strong oversight," Schumer said in a statement.

Rep. Adam Schiff, D-Calif., who led Trump's impeachment and subsequent Senate prosecution, told The Associated Press that Trump's actions were "designed to neuter any kind of oversight of his actions and that of the administration during a time of national crisis, when trillions

of dollars are being allocated to help the American people." Trump's removal of Fine follows his late-night firing on Friday of Michael Atkinson, the intelligence community inspector general who forwarded to Congress a whistleblower complaint that ultimately led to the president's impeachment in the House.

On Monday, the president also publicly condemned the acting Health and Human Services watchdog over a survey of hospitals about the coronavirus response.

Trump has bristled at the oversight of the coronavirus law, suggesting in a statement last month that some

of the mandates from Congress were unconstitutional.

"I'll be the oversight," Trump declared as lawmakers were finalizing the rescue plan.

He has also drawn criticism for naming a White House lawyer to a new Treasury Department position overseeing \$500 billion in coronavirus aid to industry.

Michael Horowitz, the Justice Department inspector general and chair of a council of watchdogs, had moved quickly last month to appoint Fine the head of the new coronavirus oversight board.

But Fine will no longer be able to serve in the role

because Trump has nominated a replacement inspector general at the Pentagon and appointed an acting one to serve in Fine's place, according to an email from an assistant Defense Department inspector general that was obtained by The Associated Press.

The demotion disqualifies Fine from serving on the oversight board, which was created by Congress to be the nexus of oversight for coronavirus funding. He will instead revert to the position of principal deputy inspector general.

Democrats immediately criticized the move. House Oversight and Reform

Chairwoman Carolyn Maloney, D-N.Y., said Trump's actions are a "direct insult" to American taxpayers.

"President Trump has been engaged in an assault against independent Inspectors General since last Friday in order to undermine oversight of his chaotic and deficient response to the coronavirus crisis," Maloney said.

Republican Sen. Charles Grassley, a longtime whistleblower advocate, tweeted at Trump not to view inspectors general as critics, though he didn't mention Fine by name. He said the officials hold the federal bureaucracy accountable. □

'A lot of pain.' NY has biggest 1-day jump in virus deaths

By MARINA VILLENEUVE, KAREN MATTHEWS and MICHAEL HILL

Associated Press

NEW YORK (AP) — New York state recorded 731 new coronavirus deaths, marking its biggest single-day jump, Gov. Andrew Cuomo said Tuesday. The state's death toll since the beginning of the outbreak last month grew to 5,489. The alarming surge in deaths comes even as new hospital admissions have dropped on average over several days, a possible harbinger of the outbreak finally leveling off. Cuomo said the death tally is a "lagging indicator" that reflects the loss of critically ill people hospitalized earlier.

"That's 731 people who we lost. Behind every one of those numbers is an individual. There's a family, there's a mother, there's a father, there's a sister, there's a brother. So a lot of pain again today for many New Yorkers," Cuomo said at a briefing at the state Capitol.

The state has been recording more than 500 new deaths a day since late last week. The number of confirmed cases — which does not include infected people who have not been tested — is close to

139,000 statewide.

While Cuomo said New York could be reaching a "plateau" in hospitalizations, he warned that gains are dependent on people continuing to practice social distancing.

"This is a projection," he said. "It still depends on what we do, and what we do will affect those numbers."

Here are other coronavirus developments in New York:

SEPT. 11 ATTACKS

More people have now

died from the coronavirus in New York City than perished in the Sept. 11 attack on the World Trade Center. At least 3,202 people have been killed in the city by the virus, according to a new count released by city health officials Tuesday.

The deadliest terror attack on U.S. soil killed 2,753 people in the city and 2,977 overall, when hijacked planes slammed into the World Trade Center, the Pentagon and a field near Shanksville, Pennsylvania,

on Sept. 11, 2001.

The coronavirus has again made New York ground zero in a national tragedy and the center of a crisis that is reshaping Americans' lives, liberties and fears. The coronavirus death toll has mounted over the course of just a few weeks. The city recorded its first on March 13, less than two weeks after confirming its first infection. New York City is conducting its own count of fatalities, separate from the state's, and its tally was

announced prior to Cuomo's release of the new state fatality numbers.

HOSPITAL SHIP INFECTION

A crew member of a Navy hospital ship sent to New York City for the coronavirus outbreak has tested positive for the disease.

The USNS Comfort crew member tested positive Monday and was being isolated, the Navy said in a prepared statement. The positive test will not affect the hospital ship's mission to receive patients, according to the Navy.

The Comfort has treated about 40 non-COVID-19 patients since arriving in the city last week, prompting complaints it was doing little to help overburdened hospitals in the area.

President Donald Trump said Monday he agreed to take COVID-19 patients aboard the ship after speaking with Cuomo. Federal officials say emergency patients will now be seen on the ship, whether or not they have the virus, though the ship can isolate only a small number of patients.

Though the Comfort has 1,000 beds, Cuomo said the transition to handling coronavirus patients will reduce the ship's capacity to 500 beds. □

Wisconsin voters wait hours at the few open polling stations

By **SCOTT BAUER** and **STEVE PEOPLES**

Associated Press

MADISON, Wis. (AP) —

Thousands of Wisconsin voters waited hours in line to cast ballots and the National Guard staffed overcrowded polling stations on Tuesday, straining the state's ability to hold a presidential primary election under the lash of an escalating pandemic.

At the same time, many voters said they did not receive their requested absentee ballots and, unwilling to violate a stay-at-home order to vote in person, accepted their votes would not be counted.

"We have moved forward with an election, but we have not moved forward with democracy in the state of Wisconsin," warned Neil Albrecht, executive director of the Milwaukee election commission.

The state's largest city opened just five of its 180 traditional polling places, forced to downsize after hundreds of poll workers stepped down because of health risks. The resulting logjam forced voters to wait together in lines spanning several blocks in some cases. Many did not have facial coverings.

The chaos in Wisconsin, a premiere general-election battleground, underscored the lengths to which the coronavirus outbreak has

upended politics as Democrats seek a nominee to take on President Donald Trump this fall. As the first state to hold a presidential primary contest in three weeks, Wisconsin becomes a test case for dozens of states struggling to balance public health concerns with voting rights in the turbulent 2020 election season.

Joe Biden hopes the state will help deliver a knockout blow against Bernie Sanders in the nomination fight, but the winner of Tuesday's contest may be less significant than Wisconsin's deci-

sion to allow voting at all. Its ability to host an election during a growing pandemic could have significant implications for upcoming primaries and even the fall general election.

Polls were scheduled to close at 8 p.m. CDT, although results were not expected Tuesday night. A court ruling appeared to prevent results from being made public earlier than next Monday.

Democrats in and out of Wisconsin screamed for the contest to be postponed, yet Republicans — and the conservative-majority state

Supreme Court — would not give in. There were particular concerns that minority voters, who tend to live in the areas with the most significant wait times and the highest health risks, were disproportionately affected. The fight over whether to postpone the election, as more than a dozen states have done, was colored by a state Supreme Court election also being held Tuesday. A lower turnout was thought to benefit the conservative candidate.

tion, Trump on Tuesday broke from health experts who have encouraged all Americans to stay home by calling on his supporters to show up for the conservative judicial candidate.

"Wisconsin, get out and vote NOW for Justice Daniel Kelly. Protect your 2nd Amendment!" Trump tweeted. Sanders said that holding the election was "dangerous" and "may very well prove deadly." He did not encourage his supporters to vote in person. Biden has largely avoided discussion of the Wisconsin contest in recent days, instructing his supporters only to "follow the science."

Wisconsin had reported nearly 2,500 coronavirus infections and 77 related deaths as of Monday night. The unprecedented challenge created a chaotic scenes across the state — and a variety of health risks for voters and the elected officials who fought to keep polls open.

They included Robin Vos, the Republican speaker of the state Assembly, who joined more than 2,500 National Guard troops dispatched to help staff voting stations. While many voters stranded in lines for more than an hour did not have any protective equipment, Vos donned a face mask, safety glasses, gloves and a full protective gown. □

Earl Graves Sr., founder of Black Enterprise magazine, dies

NEW YORK (AP) — Earl Graves Sr., who championed black businesses as the founder of the first African American-owned

magazine focusing on black entrepreneurs, has died. He was 85.

Graves died Monday after a long battle with Alzheim-

er's disease, his son, Earl "Butch" Graves Jr, said in a post on Twitter.

Graves launched his magazine, Black Enterprise, in 1970. He later said his aim was to educate, inspire and uplift his readers.

"My goal was to show them how to thrive professionally, economically and as proactive, empowered citizens," Graves wrote in his 1997 book "How to Succeed in Business without Being White."

According to an obituary published by Black Enterprise, Graves grew up in Brooklyn and gained an economics degree from

Morgan State University. He held jobs in law enforcement and real estate before working on Sen. Robert F. Kennedy's staff.

After Kennedy's assassination in 1968, he moved to found the magazine, which is now headed by his son.

He served on the boards of several major corporations, including American Airlines, Daimler Chrysler and Rohm & Hass and backed the presidential bids of Jesse Jackson and Barack Obama, Black Enterprise wrote.

In addition to Black Enterprise, Graves also ran Pepsi-Cola of Washington, D.C.,

one of the nation's largest soft-drink distributors owned by African Americans. He sold his stake in the bottler to PepsiCo in 1998.

"As a little boy, I saw a magazine with something I'd never seen—a picture of a Black man as the owner: Black Enterprise Founder & Publisher Earl G. Graves," tweeted Rev. Cornell William Brooks, a professor at Harvard's Kennedy School and former president and CEO of the NAACP. "Graves has died — after inspiring MILLIONS to succeed in business & beyond. Inspired kids & so many others mourn his passing." □

With prime minister in ICU, Britain asks: Who's in charge?

By JILL LAWLESS and
DANICA KIRKA

Associated Press

LONDON (AP) — As British Prime Minister Boris Johnson fights the coronavirus in the intensive care unit of a London hospital, the people of his country are wishing him well — and asking who's in charge.

The answer is ambiguous. Britain's unwritten constitution does not spell out what happens if a prime minister becomes unable to perform his or her job.

There is no official role of acting or deputy prime minister, and heads of government only leave office through resignation or death, Alex Thomas, a program director at the Institute for Government, political think-tank, said.

"Boris Johnson continues as prime minister for as long as neither of those things happens," he said.

The U.K.'s leaders can appoint someone to fill in for them temporarily during illness or absences. When he was admitted to the hospital Sunday night, Johnson asked Foreign Secretary Dominic Raab — who also holds the title first secretary of state — to take over many of his duties "where appropriate."

The wording has caused

A man reads a newspaper with the headline: 'PM in intensive care', outside St Thomas' Hospital in central London as British Prime Minister Boris Johnson is in intensive care fighting the coronavirus in London, Tuesday, April 7, 2020.

some confusion about the limits of Raab's powers and whether he is authorized to make major policy decisions, or even take the country to war.

Johnson's official spokesman, James Slack, said Tuesday that Raab would lead the government's response to the coronavirus outbreak, and would also be able to lead meetings of the National Security Council, though none is cur-

rently scheduled. But Raab can't fire Cabinet ministers or senior officials, and he won't hold the prime minister's weekly audience with Queen Elizabeth II.

In the British political system, the prime minister's power lies less in the role's specific responsibilities — which are relatively few — than in the leader's political capital and authority as "first among equals" in the Cabinet.

That's especially true in Johnson's government, which is made up of relatively inexperienced ministers appointed by a prime minister with a big personality and a hefty personal mandate from a resounding election victory in December.

"This was not a Cabinet of equals," said Jill Rutter, a former civil servant and senior research fellow at the U.K. in a Changing Europe

think tank. "This was Boris Johnson and his people."

Raab's "lack of political authority" might become noticeable if it is time to make major decisions, like when to ease the country's coronavirus lockdown in an attempt to revive the economy.

Restrictions on movement and economic activity were imposed March 23 in response to COVID-19, initially for three weeks. That means a review is needed next week. With the government's medical advisers saying infections have yet to peak in the U.K. and more than 6,100 deaths reported so far, it's unlikely the restrictions will be lifted that soon.

British officials are hoping Johnson will be back at his desk by the time the decision has to be made.

If Johnson did become unable to return to work, he could resign and pick a successor, whom the queen would be asked to appoint as prime minister. If Johnson couldn't make a preference known, the remaining Cabinet members would be expected to choose a replacement.

"If they can't agree, then that puts us in very difficult constitutional territory," Thomas said. □

Court find ex-Ecuador president guilty of corruption

By GONZALO SOLANO

QUITO, Ecuador (AP) — An Ecuadorian court found former President Rafael Correa guilty of corruption Tuesday and sentenced him to eight years in prison, further sully the legacy of one of the nation's most enduring and polemic political leaders.

Judge Iván León said prosecutors had successfully proved the existence of a "structure of corruption" led by Correa and 19 other high-profile politicians and business leaders accused of participating in the bribery scheme.

The decision could effectively end any aspirations by Correa to return to politics, as the sentence bars

him from running for office for 25 years.

"So much money can't be hidden easily," said León, who read the sentence in the closed door, two-hour long sentencing in which judges wore masks and protective gloves as a precaution against the spread of the coronavirus.

Correa has denied the charges against him, calling them a political witch hunt.

"For sure we will win at the international level," he said on Twitter immediately after the sentencing. "Because this is all a monstrosity."

The 57-year-old former head of state has been living in his wife's native Belgium since 2017. Though Ecuadorian authorities

have demanded his arrest and extradition previously, thus far he has been allowed to stay in Belgium.

Ecuadorian officials are not expected to request his immediate extradition until the case has made its way through the anticipated appeals process.

Prosecutors state the former president oversaw a plot in which foreign and local businesses made cash payments to his PAIS Alliance political party in exchange for lucrative public works contracts. The payments were allegedly made between 2012 and 2016, years that overlap with Correa's time in the presidency.

China's virus pandemic epicenter Wuhan ends 76-day lockdown

WUHAN, China (AP) — The lockdown that served as a model for countries battling the coronavirus around the world has ended after 11 weeks: Chinese authorities are allowing residents of Wuhan to once again travel in and out of the sprawling city where the pandemic began.

As of just after midnight Wednesday, the city's 11 million residents are now permitted to leave without special authorization as long as a mandatory smartphone application powered by a mix of data-tracking and government surveillance shows they are

healthy and have not been in recent contact with anyone confirmed to have the virus.

The occasion was marked with a light show on either side of the broad Yangtze river, with skyscrapers and bridges radiating animated images of health workers aiding patients, along with one displaying the words "heroic city," a title bestowed on Wuhan by president and Communist Party leader Xi Jinping. Along the embankments and bridges, citizens waved flags, chanted "Wuhan, let's go!" and sang a capella renditions of China's national anthem.

Traffic moved swiftly

through the newly reopened bridges, tunnels and highway toll booths, while hundreds waited for the first trains and flights out of the city, many hoping to return to jobs elsewhere.

Restrictions in the city where most of China's more than 82,000 virus cases and over 3,300 deaths were reported have been gradually relaxed in recent weeks as the number of new cases steadily declined. The latest government figures reported Tuesday listed no new cases.

While there are questions about the veracity of China's count, the unprecedented lockdown of Wuhan and its surrounding

province of Hubei have been successful enough that countries around the world adopted similar measures.

During the 76-day lockdown, Wuhan residents had been allowed out of their homes only to buy food or attend to other tasks deemed absolutely necessary. Some were allowed to leave the city, but only if they had paperwork showing they were not a health risk and a letter attesting to where they were going and why. Even then, authorities could turn them back on a technicality such as missing a stamp, preventing thousands from returning to their jobs outside the city.

Residents of other parts of Hubei were allowed to leave the province starting about three weeks ago, as long as they could provide a clean bill of health.

Prevention measures such as wearing masks, temperature checks and limiting access to residential communities will remain in place in Wuhan, which is the capital of Hubei.

"This day that people have long been looking forward to and it is right to be excited. However, this day does not mark the final victory," the paper said. "At this moment, we still need to remind ourselves that as Wuhan is unblocked, we can be pleased, but we must not relax."

In anticipation of the lock-

down's lifting, SWAT teams and staff in white hazmat suits had patrolled outside the city's Hankou railway station, while guards attended a security briefing under the marble arches of its entrance.

Tickets for trains out of Wuhan to cities across China already were advertised on electronic billboards, with the first train leaving for Beijing at 6:25 a.m. A line designated for passengers headed to the capital was roped off, while loudspeakers blared announcements about pandemic control measures, such as keeping safe distances and wearing masks. Wuhan is a major center for heavy industry, particularly autos, and while many major plants have restarted production, the small and medium-sized businesses that provide the most employment are still hurting from both a lack of workers and demand. Measures are being instituted to get them back on their feet, including 20 billion yuan (\$2.8 billion) in preferential loans, according to the city government. China blocked people from leaving or entering Wuhan starting Jan. 23 in a surprise middle-of-the-night announcement and expanded the lockdown to most of the province in succeeding days. Train service and flights were canceled and checkpoints were set up on roads into the central province. □

Most people on Antarctica cruise ship have the coronavirus

By **GUILLERMO GARAT**

MONTEVIDEO, Uruguay (AP) — Nearly 60 percent of 217 people — many from Australia, Europe and the United States — on board a cruise ship off the coast of Uruguay have tested positive for the new coronavirus, the ship's operator said Tuesday.

"There are currently no fevers on board and all are asymptomatic," said Aurora Expeditions, the Australian operator of the Greg Mortimer ship that is working to disembark the crew and passengers and arrange flights to their home countries.

The Greg Mortimer departed

March 15 on a voyage to Antarctica and South Georgia that was titled "In Shackleton's Footsteps," a reference to the polar explorer who led British expeditions to the region and died there in 1922.

Of 217 people tested on the vessel, 128 were positive for the virus that causes the COVID-2019 disease and 89 tested negative, Aurora Expeditions said.

Another six people who were evacuated from the ship are in stable condition and being treated in Montevideo. The people on the ship are calm but they are eager to go home, said Marcelo Girard, a doctor at a Uruguayan medical facility where two people from the

Greg Mortimer are being treated. Australian passengers, and possibly those from New Zealand, are likely to fly home on Thursday or Friday on an Airbus 340 that has been refitted, with people who have the virus and those who do not traveling in separate cabin areas, according to Aurora Expeditions. The cost per passenger is about \$9,300 and the cruise ship operator has asked the Australian government for help with expenses.

The plan would require the passengers to undergo a 14-day quarantine on arrival at a facility in Melbourne, the company said.

U.S. and European passengers who tested negative will hopefully be

able to depart later in the week, following a second test and permission from the Uruguayan government, Aurora Expeditions said. Those who tested positive must wait until they test negative before flying home.

In a separate case, a cruise ship anchored in Santos, on the coast of Brazil's Sao Paulo state, had its quarantine extended until at least April 19 after doctors found new suspected cases of the coronavirus, according to Brazilian officials. There are now 40 suspected cases aboard the Costa Fascinosa vessel, which is owned by Costa Cruises. Hundreds of people are on the ship. □

ECB takes action to keep banks lending during virus crisis

By **DAVID McHUGH**

AP Business Writer

FRANKFURT, Germany (AP)

— The European Central Bank took action Tuesday to support lending to companies across the 19-country eurozone by easing rules for banks that tap the central bank for ready money. The action comes amid widespread efforts by central banks such as the ECB and the U.S. Federal Reserve to keep the economy supplied with credit so that businesses can weather a devastating period of shutdowns, travel restrictions and social distancing.

The Frankfurt-based central bank said it was temporarily easing collateral rules for lending to banks, meaning banks can now use a wider range of financial assets as collateral for short-term central bank credit and

would get more money loaned for a given amount

of collateral.

The impact is to make life

easier for banks so they can keep lending to com-

panies and have less reason to restrict credit by calling in or not making loans. Banks are key for the European economy because they provide most of the financing for companies, in contrast to the U.S., where borrowing on financial markets is more common. The ECB also restored Greek government bonds to the approved collateral list, opening up credit for banks in Greece that hold them.

They had been excluded from the list after the Greek debt crisis because they were not rated investment grade.

The bank has already announced an 870 billion-euro (\$950 billion) program of bond purchases to support the economy through the end of the year, as well as easing requirements. □

Wall Street's rally fizzles as oil prices suddenly plunge

By **STAN CHOE and**

ALEX VEIGA

AP Business Writers

NEW YORK (AP) — A big rally on Wall Street is losing steam in afternoon trading Tuesday, undercut in part by another plunge in the price of oil.

The S&P 500 had been up as much as 3.5% early in the day, tacking more gains onto its 7% surge Monday following encouraging signs that the coronavirus pandemic may be close to leveling off in some of the hardest hit areas of the world. But the gains mostly evaporated in the afternoon after the price of U.S. crude oil slid more than 7%. Energy stocks in the S&P 500 were clinging onto a 2.9% gain after earlier being up nearly 8%. That weighed on the overall market, and the S&P 500 was up just 0.7%, as of 2:52 p.m. Eastern time.

Earlier in the day, Wall Street had surged to big gains as markets around the world rallied for a second straight day following encouraging signs that the coronavirus pandemic may be close to leveling off in some of the hardest hit areas of the world.. Even though economists say a punish-

ing recession is inevitable, the stock market is looking ahead to when economies will reopen from their medically induced coma. A peak in new infections would offer some clarity about about how long the recession may last and how deep it will be. Investors could then, finally, envision the other side of the economic shutdown, after authorities forced businesses to halt in hopes of slowing the spread of the virus. In the meantime, governments around the world are approving or discussing trillions of dollars more of aid for the economy.

Many professional investors say they're wary of the recent upsurge and expect more volatility ahead. But if Tuesday's slight gains hold, it would be one of the few times the market has mustered a back-to-back gain since the coronavirus outbreak caused it to start selling off in mid-February.

"We are still in what you would call the relief rally off of the prior low," said Sam Stovall, chief investment strategist at CFRA. He noted that this kind of a rally is common within deep bear markets, Wall Street-speak

for when stocks decline 20% or more from a peak. "There's no guarantee that the worst is behind us, yet traders believe that at least there is some short-term money to be made," Stovall said.

The Dow Jones Industrial Average was up 148 points, or 0.7%, to 23,828, and the Nasdaq was up 0.1%.

Oil prices have been even more volatile than the stock market in recent weeks as demand dries up for energy amid a global economy weakened by the coronavirus outbreak. Russia and Saudi Arabia have also been locked in a price war, refusing to cut production even as the world is awash in excess oil.

Benchmark U.S. crude oil fell \$1.98 to \$24.11 per barrel. In China, the first country to lock down wide swaths of its economy to slow the spread of the virus, authorities reported no new deaths over the past 24 hours. Many experts, though, are skeptical of China's virus figures.

Investors also see signals that the number of daily infections and deaths may be close to peaking or plateauing in Spain, Italy and

New York. The number of daily deaths rose in New York, the center of the U.S. outbreak, but other statistics were more encouraging, including the average number of people hospitalized each day.

Experts say more deaths are on the way due to COVID-19, which has already claimed at least 76,000 lives around the world. The U.S. leads the world in confirmed cases with more than 369,000, according to a tally by Johns Hopkins University.

More economic misery is also on the horizon. Economists expect a report on Thursday to show that 5 mil-

lion Americans applied for unemployment benefits last week as layoffs sweep the country. That would bring the total to nearly 15 million over the past three weeks. Analysts also expect big companies in upcoming weeks to report their worst quarter of profit declines in more than a decade. Massive aid from the Federal Reserve has helped smooth out snarled trading that had beset lending markets earlier in the sell-off. Companies are coming back to the bond market to borrow, even some with "junk" credit ratings, and investors are actually lending them money again. □

Virus crisis cuts off billions sent to poor around the world

their arrival in the United States 16 years ago, they weren't able to send home about \$300 to help their families with food, rent, medicine and school bills. In the Honduran town of Villa Nueva Cortez, Hernández's mother Teonila Murillo is running out of money to buy insulin for her diabetes, and Hernández's brother doesn't know if he'll be able to make his \$60 rent next month. "I'm doing really badly," Murillo told The Associated Press. "There's no money, and no work. If you get sick here, you die." The devastation wrought by COVID-19 across the developed world in cutting into the financial lifelines for people across Latin America, Africa and Asia. The World Bank estimates that a record \$529 billion was transferred to developing countries through official channels in 2018, the latest year for which fig-

ures are available. Billions more moved unrecorded in cash. Many of those remittances are sent home by people who work in service jobs or occupations, like day labor, that have no monthly paycheck and are worst affected by the global downturn. Some also comes from illegal immigrants ineligible for part of the massive aid packages uncorked by advanced economies. With coronavirus shutting down industries, many earners in Miami, Las Vegas, London, and other economic centers can no longer afford to send their monthly \$50, \$100 or \$200 to Honduras, Somalia or India. The shock waves are pushing their relatives to desperation. "I'm in anguish," said Hernández, 45. "They're counting on me. I'm trying to get anything I can send, \$30, \$50, whatever."

Associated Press.

Across Africa, where remittances have grown to surpass foreign aid and direct foreign investment and some \$82 billion flowed in during 2018 alone, untold millions of people are already feeling the pinch. One money-transfer company in Europe sending funds to Africa saw an 80 percent drop in volume in a single week, the Washington-based Center for Financial Inclusion said last month. In Somalia Abdalla Sabdow, a former security guard and a father of six, made his way through Mogadishu last week to check on the \$200 he receives monthly from his cousin Yusuf Ahmed, a taxi driver in the U.S. But the money was late. His cousin, like many in the U.S., had been confined to his home for almost three weeks, unable to work. "I came back empty-handed," an anxious-looking Sabdow said, after peering under the partition as workers, one wearing a face mask and gloves, fanned through stacks of crisp \$100 bills. "I asked the counter to double-check my name, but nothing has been forthcoming. Time is running out ... It is very distressing." With three of his small children piled onto his lap at home, he worried about

falling behind in rent, no small thing in a city where camps of hundreds of thousands of internally displaced people are a constant reminder of the fragility of circumstances.

"This month we had a big problem," his cousin, Ahmed, later explained by phone. He hoped to send the money the following week. Remittances make up more than 5% of GDP in at least 13 African nations, sometimes far more, the Brookings Institution said last month. Kenya's remittances are now its largest source of foreign exchange, its president said in December. More than a third of all remittances to Africa come from the European Union, and other significant sources are North America, Gulf nations and other African countries. Informal remittances, though not tracked in World Bank and other data, are estimated to be the source of billions of dollars more.

"We're going to begin to see a contraction in the economy," said Olayinka David-West, a professor at the Lagos Business School in Nigeria, said in a recent seminar held by the Center for Financial Inclusion. Africa's top oil producer is also the biggest recipient of remittances in sub-Saharan Africa, with the money exceeding its revenues from petroleum.

Central America, a region heavily dependent on remittances from the United States, could see a 20 percent drop, from \$23.9 billion last year to \$19.12 billion this year, said Jonathan Menocos, director of the Central American Institute of Fiscal Studies.

Across all of Latin American and the Caribbean, remittances from the U.S. could drop between 7% and 18% this year, from last year's \$75 billion total, according to the Washington-based Inter-American Dialogue. "It is a wide range, and the largest drop may be more accurate unfortunately," said Dr. Manuel Orozco, director of migration, remittances and development at the think tank. □

Support foodbank by marines transferred to hospital

ORANJESTAD — The kitchen crew from the Dutch marine base in Savaneta has prepared more than 1700 meals for our Food Bank last week. The marines were in a two-week quarantine after taking part in an international naval exercise and used their isolation time to help local community. Now they need their capacity again on the base, but the Food Bank is not left alone as the hospital is taking over the marine's task.

The Dr. Horacio E. Oduber Hospital will prepare 200 meals a day which will be donated to the Food Bank. They will do this from April 6 to April 12 and the marines will take care of the transport to the Food Bank. "In

these hard times we need to make the best of it. We do this for and with each other. It is fantastic to see that the initiative is carried on by our hospital. We can only hope that more companies are inspired to

do good, together we will make it," says the marine's communication representative.

One of the tasks of the Dutch military defense in the Caribbean is to sup-

port local authorities. In the case of a request of assistance by one of the islands, the military will support local police forces to maintain public order and safety. The marine base cannot stress enough for people to stay home and keep to the measures taken by the government. Only together we can fight against COVID-19.

About the Food Bank

Fundacion Pa Nos Comunidad (FPNC) is a foundation that supports vulnerable groups and voluntary initiatives in the Aruban community. There are more than 800 families registered at FPNC however we are well aware that there are more families on Aruba who

struggle to fully meet their basic needs.

FPNC will try to bring all organizations and foundations together to focus on avoiding and fighting poverty, emotional distress and social exclusion in the largest sense of the word (independent of the nationality, religion and culture), to gather funds and financial means to finance these initiatives and to promote the poverty care and the complete welfare.

FPNC's major project is the national Food Bank; storage for food products, clothing, furniture and other basic needs articles. At the same time they avoid waste of food and products. □

Survival is a basic human instinct. Fear of illness and impending death crouches at the internal epicenter of the coronavirus crisis. Around the periphery is the fear of hunger, thirst, and lack of necessities. But courage and compassion to care for strangers is the crux of the Good Samaritan story.

the Pandemic of 2020 will be published. We will know what worked and what didn't work. We will mourn the deceased. We will recover, reflect, and regroup. The human race will carry on. But people must come before political agendas, before products and productivity, and before a pandemic.

The most romantic natural Pool in Aruba

This romantic natural pool is very unique and sure my preferred one. The shape is round and been nicely carved into the lava and coral stones. At the front side of the pool is a majestic peace of art of a giant fossilized coral. It can fit easily about 4 people and the water is like 18 inches deep so you will be fully under water. The area is on your left hand on the dirt road to the Natural Bridge.

My most liked frequent question

I like when I get questions like how to take better photos or when they analyze one of my photos. Well the first and most powerful trick in photography is to change your angle to get a different perspective. Don't shoot on the same eye level as all the others so. In this photo I lowered the camera so I can get another perspective and that give the extra touch to a photo. Same spot but with different angle will enhanced your photo.

Aruba's metamorphose

In the 18th century gold, Aloe and phosphate were very important next to fishing and farming. In the beginning of the 19th century many locals migrated to Cuba and Venezuela to work in the sugarcane industry. When LAGO transport and then Refinery started in 1924 our economy got the needed push and that was so for many years. The refinery employed almost 10.000 and many came to work and live here in Aruba. Tourism started in the late 40's and kept growing till today that we don't have any tourist left on my island. But I know that all we have learned over the last 100 years will get us back on track and with the Lord's Blessing we will stand up back again.

This happened yesterday

My wife went running outside to take a shot of the sun halo and it was just amazing. The ring is caused by sunlight passing through ice crystals in cirrus clouds within the Earth's atmosphere and this happened earlier this year in January I think. Pretty amazing and this is my shot from yesterday
